Professional Interior Designing Software Mastery

3 MONTHS

Offline Professional Software Course

Course Overview

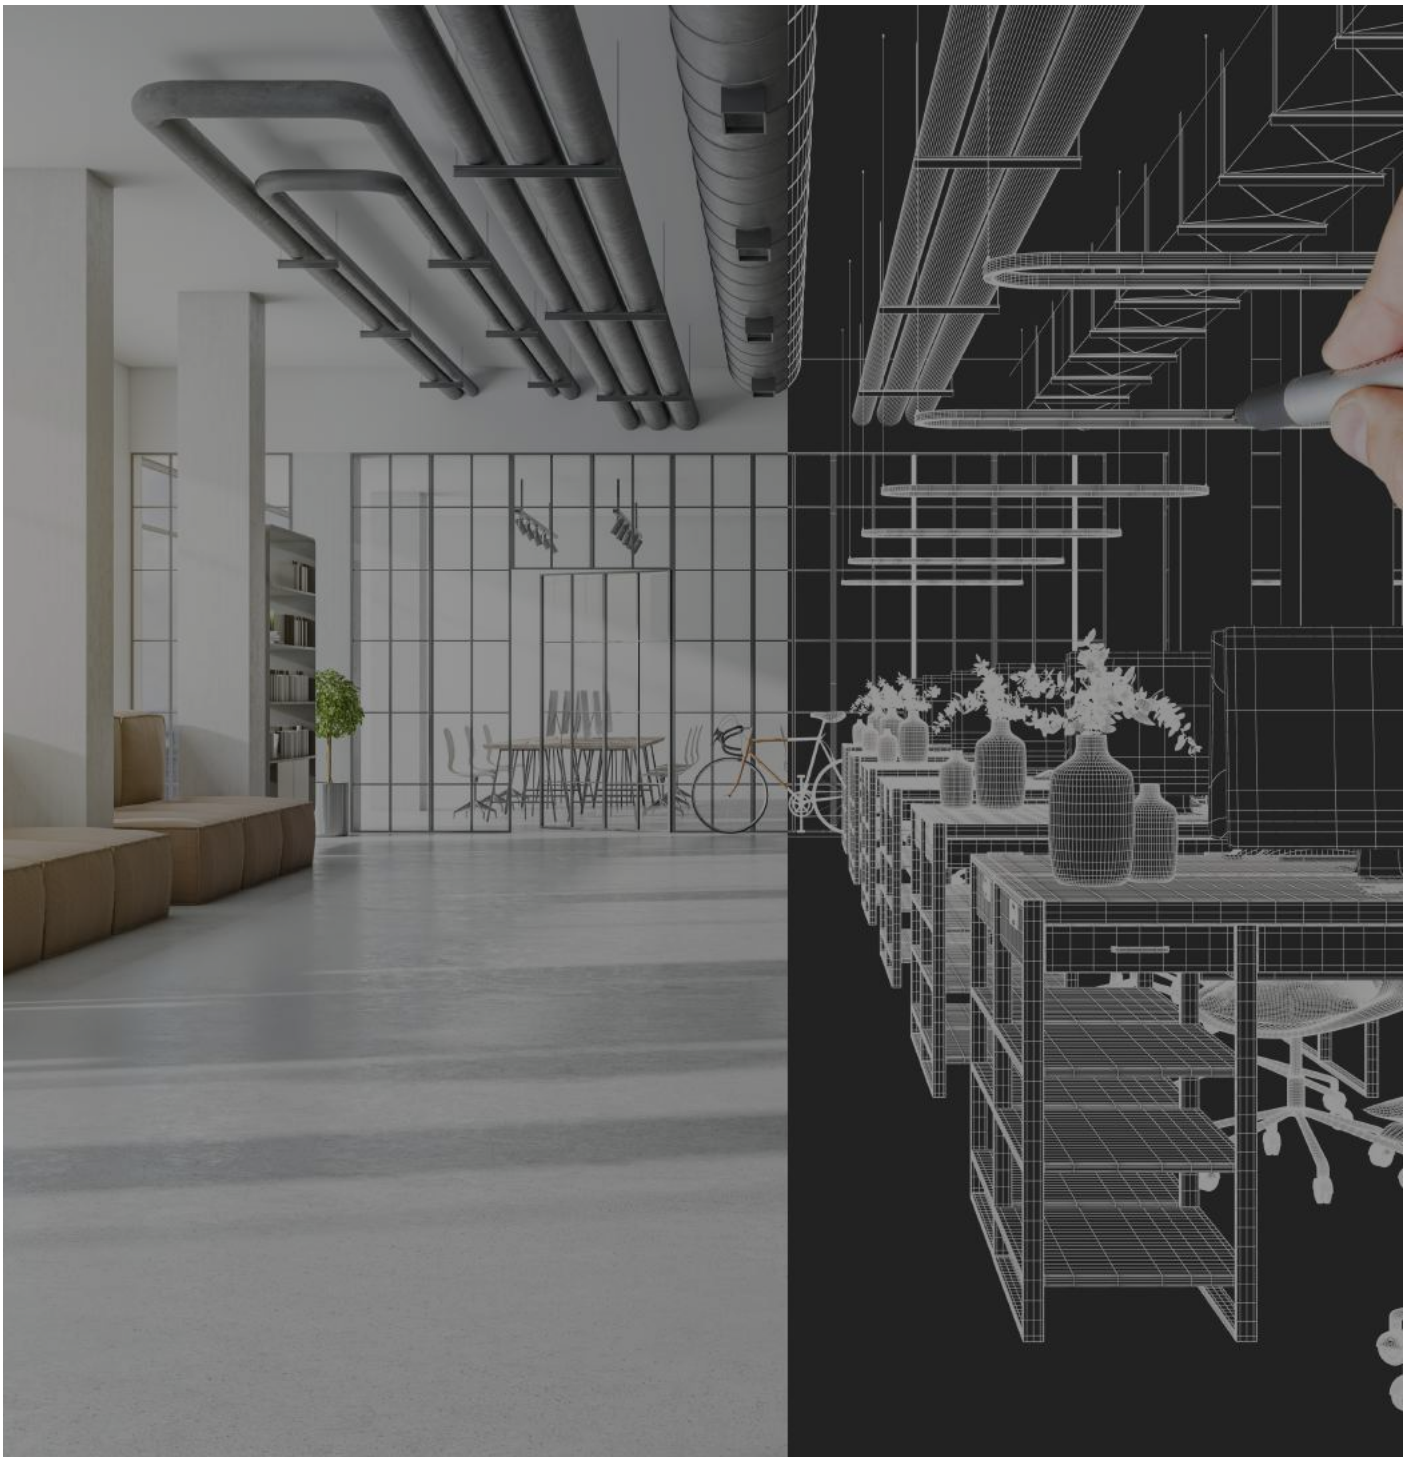

Customised for both budding designers and fresh professionals, this program is made to strategically sharpen your skills in AutoCAD, Google SketchUp, V-Ray rendering, Photoshop, and manual drafting. The curriculum immerses students in architectural drafting, 3D modelling, and advanced visualisation techniques, laying a robust foundation for their career advancement.

Curriculum Highlights

-  Introduction to Architectural Drafting Principles
-  Application of Skills in Presentation Studio-01
-  Culminating in a Final Project and Portfolio Development
-  Comprehensive Software Training
-  Hands-on Drafting Exercises and Techniques
-  Crafting 3D Models with Textures and Materials
-  Advanced Visualization and Portfolio Enhancement

Special Features

-  **SOFTWARE MASTERY:** Acquire proficiency in industry-standard software crucial for contemporary design practices.
-  **REAL-WORLD APPLICATION:** Immerse yourself in practical scenarios, bridging the gap between theory and industry demands.
-  **PORTFOLIO DEVELOPMENT:** Showcase your skills through a comprehensive portfolio, elevating your professional appeal.
-  **INTERNSHIP OPPORTUNITIES:** Gain practical experience, setting the stage for a seamless transition into a thriving career path.
